

TECHNICAL DATA SHEET

Wax underseal

Art. no. 0892 078 1

Wax-based coating compound containing solvents, cannot be painted over

Chemical basis	Wax
Contents	500 ml
Weight of content	465 g
Colour	Transparent
Min. proportion of solids	21 %
Conditions for through drying	at 20 °C, 65% relative humidity, 400 µ wet
Conditions for skin-formation time	at 400 µm
Min. skin-formation time	120 min
Density	0.69 kg/l
Density conditions	at 15 °C
Shelf life from production	24 Month
Max. temperature resistance	180 °C
Min. temperature resistance	-25 °C

Application area

To enhance and treat all protective coatings on rubber resin, bitumen and wax-based underbodies. Very well suited to untreated metal surfaces.

The usage instructions are recommendations based on the tests we have conducted and our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
